Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office action is responsive to communication received 10/06/2003 –
Amendment A and Request for One Month Extension of Time.

Claims 1, 5-7 and 11-17 have been canceled, as directed.

Claims 2-4 and 8-10 remain pending.

Following is an action on the MERITS:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all
obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-4 and 8-10 are rejected under 35 U.S.C. §103 as being unpatentable over Goldberg in view of Ootoguro. Specific to claims 2 and 8, Goldberg lacks intermediate sharp edges on the lateral extent of respective grooves to dig into hard surfaces. Ootoguro shows a toothed groove design that serves to reduce the grass resistance during a shot. See col. 1, lines 38-54 and Figures 5A and 5B in Ootoguro. In view of the patent to Ootoguro, it would have been obvious to one of ordinary skill in the art to modify the Goldberg device by enhancing the shape of the sole grooves so that the grooves resemble a toothed design, the motivation being to help the club more easily penetrate the grass during a swing. As to claims 3, 4, 9 and 10, although the patent to Goldberg does not explicitly detail that the groove pattern is trapezoidal, it would appear that this detail would have involved nothing more than an obvious choice in design on the part of the skilled artisan, since the applicant has not disclosed that the

trapezoidal configuration of the groove pattern on the sole solves any stated problem or is for any particular purpose and it would appear that the groove pattern would perform equally well with the grooves oriented within the confines of any geometrical pattern on the sole so long as the grooves remain parallel, one with the other, and remain perpendicular to the plane of the striking face and encompass a sufficient amount of the surface area of the sole.

RESPONSE TO ARGUMENTS

Applicant's arguments with respect to claims 2-4 and 8-10 have been considered, but are deemed moot in view of the new grounds of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
